RE: GLI's Q2 2020 Quarterly Game Payout Calculation for Gaming VC Corporation Limited Casino

Gaming Laboratories International (GLI) is an internationally recognized Accredited Testing Facility (ATF) offering a full range of testing and consultation services for terrestrial (traditional / land-based) and interactive gaming, wagering, lottery, e-commerce and Information Technology (IT) industries.

This Letter pertains to GLI's **Game Payout Calculation** for the live game play log files gathered from the Gaming VC Corporation Limited (www.casinoclub.com) Internet Gaming System (IGS), as supplied by Fincore Limited to GLI, for the period of 01 April 2020 to 30 June 2020.

GLI's **Game Payout Calculation** of the average payout percentages (i.e.: the percentage of wagers that are paid back to the players in the form of winnings) have resulted in the following values for the live game play log files submitted by Fincore Limited:

Game Type	Calculated Payout Percentage
Roulette Games	97.49%
Table Games	97.87%
Video Poker Games	97.30%
Slot Games	95.97%
Other Games	92.75%
Overall (All Games)	96.76%

GLI's **Game Payout Calculation** was limited to analysis in our laboratory environment, and was based solely on the live game play log files submitted by Fincore Limited on 09 July 2020. For verification purposes, GLI has maintained a control version of these live game play log files. The scope of work for GLI's **Game Payout Calculations** did not include a technical assessment of the Gaming VC Corporation Limited (www.casinoclub.com) IGS or the associated Information Systems (IS) and financial controls.

MA-00-FNC-20-03

GLI confirms that the payout percentages listed above have been correctly calculated based on the amounts wagered and won in the live game play log files submitted by Fincore Limited for the period 01 April 2020 to 30 June 2020.

Yours sincerely,
